Full Stack Developer — Python ▪ Django ▪ Angular ▪ React.js ▪ PostgreSQL ▪ NoSQL ▪ DevOps

PROFESSIONAL SUMMARY

Results-driven **Full Stack Developer** with 3+ years of experience in designing, developing, and deploying high-performance web applications. Expertise in **Python, Django, Django REST Framework, FastAPI, React.js, Angular, PostgreSQL, and MongoDB**. Proficient in **RESTful API design**, database optimization (**SQL/NoSQL**), and version control using Git. Skilled in problem-solving, debugging, and delivering secure, scalable solutions in **Agile/Scrum** environments with strong communication skills.

EXPERIENCE

Python Backend Developer

Faircode Technologies Pvt. Ltd

Jan 2025 – Present

Kochi, India / Hybrid

- Develop backend modules and **REST APIs** using Python (Frappe framework) for logistics and finance operations.
- Worked with both **SQL (PostgreSQL)** and **NoSQL (MongoDB)** databases for efficient data storage and retrieval.
- Implemented OAuth2 authentication and webhook integrations for QuickBooks Online.
- Automated secure file transfers via **SFTP** and background job scheduling.
- Collaborated in a remote Agile environment using Git-based workflows for version control.

Software Developer

Travidux Technologies Pvt. Ltd

Sept 2022 – Oct 2024

Chalakudy, India

- Developed and maintained REST APIs using **Python, Django, Django REST Framework**.
- Designed and implemented responsive UIs using **React.js, Angular, TypeScript, Bootstrap**, ensuring cross-device compatibility.
- Optimized PostgreSQL database schemas and queries for performance improvements.
- Implemented version control using Git/GitLab and participated in continuous integration workflows.
- Followed Agile methodology with sprint planning and daily scrum.

KEY PROJECTS

Logistics ERP Integration Platform | Frappe, REST APIs, Pandas, MariaDB, QuickBooks API, Intra API, EDI

- Developed a secure, high-performance ERP system for freight operations with automated booking workflows, EDI exchange, and a **scalable data pipeline integrating Excel/CSV into database** using ORM models.
- Designed REST APIs for third-party logistics and accounting systems integration using Django REST practices.
- Applied debugging and optimization for low-latency queries and high availability.
- Integrated QuickBooks API securely with data validation and protection measures.

Appraisal Management System | Angular, Django, DRF, PostgreSQL, Pandas

- Built a performance evaluation platform with customizable appraisal forms and real-time visualization from SQL/ORM queries.
- Integrated Angular frontend with DRF backend for smooth client-server interaction.
- Optimized PostgreSQL indexes and queries for large-scale evaluations.
- Implemented secure role-based access and robust error handling.

Business Intelligence (BI) Software | Django, DRF, Pandas, PostgreSQL, Data Visualization

- Developed a BI system to analyze, transform, and report data for decision support via dashboards and KPIs.
- Optimized ETL pipelines in Python with Pandas, storing transformed results into PostgreSQL using ORM.
- Built REST APIs using DRF for secure interactive reporting and visualizations.

Point of Sale (POS) System | Django, DRF, MySQL, REST APIs, Bootstrap

- Implemented POS system automating invoices, stock management, and accounting workflows with Django-MySQL backend.
- Built secure DRF-based API endpoints with role-based authentication for external accounting integration.
- Designed dashboards for real-time inventory and sales, enabling proactive decisions and fraud prevention.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, NoSQL, C, C++

Frameworks: Django, Django REST Framework, FastAPI, Angular, React.js, Bootstrap, Tailwind

Databases: PostgreSQL, MySQL, MongoDB

Domains: Logistics & Supply Chain, ERP Systems, Finance & Accounting, Business Intelligence (BI), POS Systems, HR & Appraisal Systems

Version Control: Git, GitHub, GitLab

DevOps & Tools: AWS (EC2, S3), Nginx, uWSGI, Docker, GitLab CI/CD, Postman, JIRA, VS Code, PyCharm

Core Skills: REST API Design, Client-Server Architecture, Agile/Scrum, Debugging, Performance Optimization, Secure Application Development

EDUCATION

B.Tech in Electronics and Communication Engineering

Mount Zion College of Engineering

2012 – 2016

Kadammanitta, Pathanamthitta, India

CERTIFICATIONS

Python Django Internship

Inmakes Infotech Pvt. Ltd

Aug 2021 – Aug 2022

Thiruvananthapuram, India

LANGUAGES

English (Fluent), Malayalam (Native), Hindi, Tamil
